October 2026

Phillip Hogan

Department of Entomology
University of Illinois, Urbana–Champaign
pnhogan2@illinois.edu
OrcID: https://orcid.org/0000-0002-6546-272X

Educational Background

University of Illinois, Urbana–Champaign, *Department of Entomology* *Anticipated: May, 2027*
- Ph.D. in Entomology, candidate
- Dissertation (tentative title): Distribution modeling of the Midwest USA stonefly (Insecta: Plecoptera) assemblage with a reconstruction of regional post-Pleistocene glaciation dispersal pathways of the *Allocapnia* Claassen, 1928.

Western Kentucky University, *Department of Biology* *2021*
- M.Sc. in Biology
- Thesis: Predictive distributional modeling of rare and uncommon stoneflies (Insecta: Plecoptera) of the central Appalachians using maximum entropy with an emphasis on the fauna of Maryland. Available at: https://digitalcommons.wku.edu/theses/3522/

Frostburg State University, *Department of Biology* *2019*
- B.Sc. in Wildlife and Fisheries Management, Concentration in Fisheries Management
- Minor in Biology

Dr. James A. Forrest Career and Technology Center, *Natural Resources Management* *2015*
- Certificate of Excellence in Natural Resources Management

Research Experience

2025 – 2026: Big Ten Academic Alliance/Smithsonian Institution Predoctoral Fellow, National Museum of Natural History, Smithsonian Institution.

2021 – Present: Graduate Research Assistant at the Illinois Natural History Survey, Prairie Research Institute
- Created and analyzed species distribution models of the midwestern stonefly fauna using Maximum Entropy and applied current phylogeographic techniques to the winter stonefly genus *Allocapnia* (Claassen, 1928).

2019 – 2021: Graduate Research Assistant at Western Kentucky University, Center for Biodiversity Studies
- Generated and analyzed species distribution models to test patterns of occurrence for USGS Species of Greatest Conservation Need listed stoneflies within the montane region of Maryland. Subsequent sampling from the spring and summer of 2020 resulted in new state records and the identification of new populations of rare and threatened species.

2018: Research Technician, Frostburg State University
- Archeological surveying and excavation of the abandoned coal mining town of Kempton, Maryland.

2016 – 2018: Research Technician, Frostburg State University
- Participated in a mark-recapture study of adult dragonflies with additional sampling of aquatic larvae. These data were prepared for a poster presentation investigating environmental influences on dragonfly community structures in Western Maryland wetlands.

2015 – 2017: Research Technician, Frostburg State University
- Paid position to identify larval aquatic macroinvertebrates within New Jersey wetlands to quantify waterfowl food production.

Teaching Experience *(22 credit hours)*

2022 – 2024: Graduate Teaching Assistant, University of Illinois, Urbana-Champaign
- General Ecology laboratory (IB 203) teaching assistant
  - Total credit hours taught: 2 (1 credit hour per course, 1 semester)
  - Responsible for teaching fundamentals of ecology to undergraduate students
- Insect Ecology (IB 444) teaching assistant

- Total credit hours taught: 4 (4 credit hours per course, 1 semester)
- Responsible for leading lab sections, grading lab reports and lecture exams, and assisting in lectures.

- Insect Classification and Evolution (IB 468) teaching assistant
  - Total credit hours taught: 4 (4 credit hours per course, 1 semester)
  - Established integral knowledge of insect systematics, ecology, and evolution in undergraduate and graduate students.
  - Developed lectures and lab materials conducive to understanding arthropod biodiversity

2019 – 2021: Graduate Teaching Assistant, Western Kentucky University

- Lead Teaching Assistant for the Animal Biology and Diversity Laboratory (BIO 225)
  - Total credit hours taught: 12 (1 credit hour per course, 4 semesters)
  - Responsible for teaching undergraduate students the fundamentals of ecology, physiology, and zoology while maintaining a professional laboratory setting.
  - Developed online course material including assessments, labs, and lectures.

Invited Course Lectures

2025 (1) Order Plecoptera (The Stoneflies). *University of Illinois, Urbana-Champaign, Insect Classification and Evolution (IB468)*. Invited by Dominic Evangelista.

Publications *Total Citations (as of 2026): 18*

202X (10, under review) Linking climate sensitivity, trait combinations and listing status to advance freshwater invertebrate conservation. A.J. Skropa, C.C. Bloomer, R.E. DeWalt, S.A. Douglas, P.N. Hogan, G.W. Hopper, D.C. Houghton, T.E. Schartel, N.F. Shoobs, B.E. Sietman, & J.T. Bried. *Ecosphere*.

2026 (9) Stoneflies (Insecta: Plecoptera) of the Midwest, USA: species checklist derived from nearly 170 years of collection records. P.N. Hogan, R.E. DeWalt, & S.A. Grubbs. *Biodiversity Data Journal* 14, e208358. (PDF link). DOI: doi.org/10.3897/BDJ.14.e208358

(8) The stoneflies (Plecoptera) of West Virginia: a new occurrence dataset. T.Z. Cook, R.E. DeWalt, S.A. Grubbs, P.N. Hogan, L.V. Hart, S.M. Clark, R.W. Baumann, D. Burton, & L.Myers. *Biodiversity Data Journal* 14, e185229. (PDF link). DOI: doi.org/10.3897/BDJ.14.e185229

(7) New records of deer keds (Diptera: Hippoboscidae: *Lipoptena cervi* L. and *L. mazamae* Rondani) in eastern North America. M.J. Skvarla, J. Green, P.N. Hogan, L.E. Jones, E.T. Machtinger, A.J. Mackay, T. Steckler, C.F. Sullivan, & D.M. Tufts. *Proceedings of the Entomological Society of Washington* 128(1), 51—70. (PDF link). DOI: doi.org/10.4289/0013-8797.128.1.51

2025 (6) An analytical synopsis of caddisfly (Insecta: Trichoptera) taxonomic history and progress in Canada and the United States. P.N. Hogan, D.C. Houghton, K. Murray-Stoker, R.E. DeWalt, A.K. Rasmussen, & J.C. Morse. In: Ríos-Touma B, Frandsen PB, Holzenthal RW, Houghton DC, Rázuri-Gonzales E, Pauls SU (Eds) Proceedings of the 18th International Symposium on Trichoptera. *Zookeys* 1263, 105—122. (PDF link). DOI: doi.org/10.3897/zookeys.1263.147986

(5) Taxonomic evaluation of *Leuctra laura* Hitchcock, 1969 (Plecoptera: Leuctridae) negates the need for a conservation assessment. S.A. Grubbs, P.N. Hogan, L.W. Myers, & R.E. DeWalt. *Journal of Natural History* 59, 2007—2022. (PDF link). DOI: doi.org/10.1080/00222933.2025.2514891

(4) The stoneflies (Plecoptera) of Arkansas: a checklist compiled from museum specimen data. L.V. Hart, R.E. DeWalt, P.N. Hogan, S.A. Grubbs, & D.K. Burton. *Biodiversity Data Journal* 13, e145637. (PDF link). DOI: doi.org/10.3897/BDJ.13.e145637

2024 (3) The female and emended male description of the USA Interior Highlands endemic, *Allocapnia oribata* Poulton & Stewart, 1987 (Plecoptera: Capniidae). P.N. Hogan, R.E. DeWalt, & S.A. Grubbs. *Journal of Insect Biodiversity* 56(2), 32—49. (PDF link). DOI: doi.org/10.12976/jib/2024.56.2.1

2023 (2) Using distribution models to identify range shifts in four *Acroneuria* Pictet, 1841 (Plecoptera: Perlidae) species in the Midwest, USA. P.N. Hogan & R.E. DeWalt. *Zoosymposia* 24(31), 107—117. (PDF link). DOI: doi.org/10.11646/zoosymposia.24.1.12

2022 (1) Distributional trends and species richness of Maryland, USA, stoneflies (Insecta: Plecoptera), with an emphasis on the Appalachian region. P.N. Hogan & S.A. Grubbs. *Ecologies* 3(3), 395—421. (PDF link). DOI: doi.org/10.3390/ecologies3030029

Publications (In Preparation)

202X Three new caddisfly (Insecta: Trichoptera) records for Nunavut, Canada. P.N. Hogan. *Specimen.*

202X Annotated updates to the caddisfly (Insecta: Trichoptera) fauna of Maryland, USA with a preliminary state checklist. P.N. Hogan. *Proceedings of the Entomological Society of Washington.*

202X Systematic notes of the *Allocapnia granulata* (Claassen, 1924) species group (Plecoptera: Capniidae). P.N. Hogan, S.A. Grubbs, & R.E. DeWalt.

202X Another "Gem" in a student collection: first record of the Birch Catkin Bug *Kleidocerys resedae* (Heteroptera: Lygaeidae) in Kentucky and two other states. D.R. Swanson & P.N. Hogan. *Entomological News.*

Scientific Presentations (*Invited Talk)

2026 (22, registered presentation) Temporal shifts of adult stoneflies (Insecta: Plecoptera) in the Midwest, USA identified from archived natural history museum specimens. P.N. Hogan & R.E. DeWalt. Presented at the Entomological Society of America, Columbus, OH.

(21, *Poster*) What we've lost: reviewing historical stonefly (Insecta: Plecoptera) distributions and species diversity trends within the Midwest, USA. P.N. Hogan & R.E. DeWalt. Presented at the Entomological Society of Washington Student Showcase, National Museum of Natural History, Washington D.C.

(20, *Presentation*) Crossing the bicentennial of North American plecopterology: a regional summary of the taxonomic and faunistic data from Plecoptera Species File. P.N. Hogan & R.E. DeWalt. Presented at the 14th North American Plecoptera Society Meeting, Highlands, NC.

(19, *Presentation*) Keeping streams clean and your data cleaner: introducing data standards in the plecopterology community. L.V. Hart, M. Jankowski, & P.N. Hogan. Presented at the 14th North American Plecoptera Meeting, Highlands, NC.

2025 (18, *Poster*) What we've lost: reviewing historical stonefly (Insecta: Plecoptera) distributions and species diversity trends within the Midwest, USA. P.N. Hogan & R.E. DeWalt. Presented at the 2025 Entomological Society of America Conference, Portland, OR.

(17, *Presentation*) The stoneflies (Plecoptera) of Arkansas: a checklist compiled from museum specimen data. L.V. Hart, R.E. DeWalt, S.A. Grubbs, P.N. Hogan, & D. Burton. Presented at the 2025 Entomological Society of America Conference, Portland, OR.

(16, *Presentation*) NE USA stonefly (Plecoptera) regional species of greatest conservation need: importance of taxonomic study, museum specimens, and new collecting in preserving imperiled stoneflies. R.E. DeWalt, S.A. Grubbs, C.J. Verdone, P.N. Hogan, T.Z. Cook, L.V. Hart, J. Merola-Lapson, J. Griffith, & M. Jankowski. Presented at the 2025 Entomological Society of America Conference, Portland, OR.

(15*, *Presentation*) Protocols for collecting, vouchering, and digitization of aquatic Hexapoda with data uses for answering broad ecological and conservation questions. P.N. Hogan & R.E. DeWalt. Presented at the 2025 Entomological Society of America Conference, Portland, OR.

(14, *Presentation*) Why taxonomy and systematics matter with conservation research: case studies on three stonefly species (Insecta: Plecoptera) from eastern North America. S.A. Grubbs, R.E. DeWalt, P.N. Hogan, & L.W. Myers. Presented at the 2025 Association of Mid-Atlantic Aquatic Biologists Annual Conference and Applied Workshops, Berkeley Springs, WV.

(13, *Presentation)* The winter stoneflies (Plecoptera: Capniidae) of the Mid-Atlantic, USA: diversity, distributions, and conservation prioritization. P.N. Hogan & R.E. DeWalt. Presented at the 2025 Association of Mid-Atlantic Aquatic Biologists Annual Conference and Applied Workshops, Berkeley Springs, WV.

2024 (12, *Poster*) The stoneflies of Arkansas: progress in building a checklist and comprehensive dataset for publication. L.V. Hart, R.E. DeWalt, & P.N. Hogan. Presented at the 13th North American Plecoptera Society Meeting, Wilmington, NY.

(11, *Presentation*) Agricultural intensification winners and losers: which life history traits predict stonefly range shifts? P.N. Hogan & R.E. DeWalt. Presented at the 13th North American Plecoptera Society Meeting, Wilmington, NY.

2022 (10, *Virtual Presentation*) Using distribution modeling to identify range shifts of four *Acroneuria* Pictet, 1841 (Plecoptera: Perlidae) species in the Midwest USA. P.N. Hogan & R.E. DeWalt. Presented at the 21st International Symposium on Plecoptera.

(9, *Presentation*) Identifying Midwest regional stonefly (Insecta: Plecoptera) refugia using Maximum Entropy distribution modeling. P.N. Hogan, R.E. DeWalt, & S.A. Grubbs. Presented at the Joint Aquatic Sciences Meeting, Grand Rapids, MI.

2020 (8, *Virtual Presentation*) A distributional modeling study of rare and uncommon stoneflies (Insecta: Plecoptera) in Maryland. P.N. Hogan & S.A. Grubbs. Presented at the Kentucky Academy of Science Annual Meeting.

2019 (7, *Presentation*) A distributional modeling study of Maryland Plecoptera (Stoneflies). P.N. Hogan. Presented at the Western Kentucky University Department of Biology Graduate Student Research Symposium, Bowling Green, KY.

(6, *Poster*) Effect of historical logging and sedimentation on the aquatic invertebrate community of Murley Run, Maryland. P.N. Hogan & J.M. Flood. Presented at the Frostburg Undergraduate Research Symposium, Frostburg, MD.

2018 (5, *Poster*) Environmental variables affecting dragonflies in western Maryland wetlands. P.N. Hogan & J.M. Studinski. Presented at the Frostburg Undergraduate Research Symposium, Frostburg, MD.

(4, *Poster*) Stream assessment and watershed management plan for Big Run, Maryland. P.N. Hogan & J.M. Flood. Presented at the Frostburg Undergraduate Research Symposium, Frostburg, MD.

2017 (3, *Poster*) The effect of the amount of sleep on grades. H. Smell, V. Mukendi, M. Huggins, & P.N. Hogan. Presented at the Frostburg Undergraduate Research Symposium, Frostburg, MD.

2015 (2, *Poster*) The effect of road salts on non-tidal streams. P.N. Hogan. 3rd place. Presented at the National FFA Agriscience Fair, Louisville, KY.

(1, *Poster*) The effect of road salts on non-tidal streams. P.N. Hogan. 1st place. Presented at the Maryland FFA Agriscience Fair, Annapolis, MD.

Published Datasets

2026 (7) Stoneflies (Insecta: Plecoptera) of the Midwest, USA: A species occurrence dataset compiled over nearly 170 Years. P.N. Hogan, R.E. DeWalt, S.A. Grubbs, & M.J. Yoder. Biodiversity Data Journal. Occurrence dataset. DOI: doi.org/10.15468/d347ck

(6) Plecoptera of West Virginia. T. Cook, R.E. DeWalt, S.A. Grubbs, P.N. Hogan, L.V. Hart, D. Burton, S.M. Clark, R.W. Baumann, & L. Myers. Pensoft Publishers. DOI: doi.org/10.15468/yhydx6

2025 (5) Caddisfly (Insecta: Trichoptera) species matrix of Canada and the United States. P.N. Hogan, D.C. Houghton, K. Murray-Stoker, R.E. DeWalt, A.K. Rasmussen, & J.C. Morse. Zenodo. DOI: doi.org/10.5281/zenodo.15176531

(4) Arkansas Plecoptera V1 data set. L.V. Hart, R.E. DeWalt, P.N. Hogan, S.A. Grubbs, & D. Burton. GBIF. DOI: doi.org/10.15468/yx25ze

2023 (3) Natural history specimens collected and/or identified and deposited. P.N. Hogan. Zenodo. DOI: doi.org/10.5281/zenodo.7946850

(2) Data for: Using distribution models to identify range shifts of four *Acroneuria* Pictet, 1841 (Plecoptera: Perlidae) species in the Midwest USA. P.N. Hogan & R.E. DeWalt. Dryad. DOI: doi.org/10.5061/dryad.gqnk98st4

2022 (1) Data from: Distributional trends and species richness of Maryland, USA stoneflies (Insecta: Plecoptera), with an emphasis on the Appalachian region, P.N. Hogan & S.A. Grubbs. Dryad. DOI: doi.org/10.5061/dryad.hdr7sqvmg

Grants and Funding Awarded (Total: $28,560.91)

2025 (11) Smithsonian Institution Fellowship Research Allowance, PI: P.N. Hogan. ($4,564.00).

2024 (10) University of Illinois, Urbana-Champaign, Graduate College Dissertation Travel Grant, PI: P.N. Hogan. Integrative Phylogeny and Taxonomy of Winter Stoneflies, *Allocapnia*. ($4,519.91)
(9) Society of Freshwater Science, Systematics and Natural History Fund, PI: P.N. Hogan. An Integrative Approach to the Systematics and Comparative Biogeography of the Eastern Nearctic Stonefly (Insecta: Plecoptera) Genus, *Allocapnia* (Claassen, 1924) ($1,000)

2023 (8) Entomological Collections Network, Entomological Collections Management Workshop Travel Award ($1,000)
(7) University of Illinois, Urbana–Champaign Graduate College Conference Travel Award ($350)
(6) University of Illinois, Urbana–Champaign Department of Entomology, Entomology Summer Stipend Award ($820)
(5) University of Illinois, Urbana–Champaign, Department of Entomology, Fred H. Schmidt Summer Scholars Award ($1,820)

2022 (4) Herbert H. Ross Memorial Fund. An integrative approach to a phylogeographic review of the eastern Nearctic winter stonefly (Plecoptera: Capniidae) genus *Allocapnia* Claassen, 1928, PI: P.N. Hogan ($5,587)
(3) University of Illinois, Urbana–Champaign Graduate College Conference Travel Award ($900)

2021 (2) University of Illinois, Urbana–Champaign, Department of Entomology, Fred H. Schmidt Summer Scholars Award, PI: P.N. Hogan. Reconstructing historical trends of the Midwest stonefly (Insecta: Plecoptera) fauna using distributional modeling. ($5,000)

2020 (1) Western Kentucky University Graduate School Research Grant**,** PI: P.N. Hogan. A comprehensive macroecological and distributional modeling study of Maryland Plecoptera (Stoneflies). ($3,000)

Technical Reports

2022 (2) Conservation status of watch-list Ephemeroptera, Plecoptera, and Trichoptera species in Illinois. Illinois Natural History Survey Technical Report 2022 (20). 19pp. R.E. DeWalt, P.N. Hogan, & Y. Cao. Submitted to the Illinois Department of Natural Resources.

2020 (1) Stoneflies (Insecta: Plecoptera) of the Sideling Hill Creek Preserve. 4pp. P.N. Hogan. Submitted to the Maryland/DC chapter of The Nature Conservancy.

Honors and Awards

2021 Outstanding Biology Graduate Student Award, Western Kentucky University
2020 Dillard/Hoyt Award for Outstanding 1st Year Graduate Student
2015 – 2019 Frostburg State University Founders Scholarship
2015 – 2017 Blackistone Lighthouse Scholarship
2015 – 2016 Frostburg State University Academic Excellence and Leadership Scholarship
2015 D. Wayne St. Clair Memorial Endowment

Professional and University Service Positions

2026 North American Plecoptera Society, board member.
2026 Trichoptera World Checklist Team, contributor
2026 Species Status Assessment Rapid Prototyping for *Allocapnia brooksi* (Plecoptera: Capniidae) and *Amphinemura mockfordi* (Plecoptera: Nemouridae), US Fish & Wildlife Service**.**
2024– 2026 Plecoptera Species File, contributor
2022 26th International Conference on Ephemeroptera and 20th International Symposium on Plecoptera
- Conference Organizer and Moderator: Planned, set up, and moderated this virtual conference that was attended by nearly 200 researchers.

2020 – 2021 WKU Department of Biology Anatomy & Physiology Search Committee
- Graduate Student Representative: Acted as an interface between the graduate student population and tenured faculty in a candidate search for a non-tenure track instructor of record.

2020 – 2021 Ogden College of Science and Engineering Graduate Council
- Graduate Student Representative: Acted as an interface between the graduate student population and tenured faculty in monthly interdepartmental meetings.

2019 – 2021 Western Kentucky University BioGrads

- Chapter President (2020): Hosted meetings, led and organized chapter events.
- Chapter Secretary (2019): Maintained meticulous records of chapter activities and recorded minutes during meetings.

Peer Review (number of manuscripts reviewed per journal in parentheses)
2026 Biologia (1), Acta Zoologica Bulgarica (1)
2025 Journal of Insect Biodiversity (1), Myrmecological News (1)

Training and Certificates
2023 Certificate of Training in Entomological Collections Management. *Entomological Collections Network*
2020 Western Kentucky University Graduate Assistant Teaching Institute Module One. *Center for Innovative Teaching and Learning*
2018 Maryland Biological Stream Survey Summer Training. *Maryland Biological Stream Survey*

Professional Memberships
2026 – Current Entomological Society of Washington
2023 – Current Entomological Society of America
2023 – Current Central States Entomological Society
2023 – 2024 Ecological Society of America
2019 – 2024 Society for Freshwater Science
2019 – 2021 Western Kentucky University BioGrads
2018 – 2019 Society of Conservation Biologists, Mountain Maryland Chapter
2015 – 2019 American Fisheries Society
2015 – 2019 Wildlife Society, Frostburg State University Chapter
2014 – 2015 National Technical Honor Society

Selected Museum Curatorial Activity
2026 National Museum of Natural History, Smithsonian, Washington D.C., USA. ~3,000 vials of Plecoptera
2025 Cornell University Insect Collection, Cornell, NY, USA. ~ 1,500 vials of Plecoptera: Capniidae
Clemson University Insect Collection, Clemson, SC, USA. ~350 vials of Plecoptera: Capniidae
Illinois Natural History Survey, Champaign, IL, USA. ~1,500 vials of Plecoptera
2024 Smithsonian Institution National Museum of Natural History, Washington D.C., USA. ~500 vials of Plecoptera: Capniidae
Illinois Natural History Survey, Champaign, IL, USA. ~2,000 vials of Plecoptera: Capniidae
2023 Illinois Natural History Survey, Champaign, IL, USA. ~1,000 vials of Plecoptera: Capniidae

Scientific Communication and Outreach
2026 (10, *Outreach Event)* Stream Insect Study and Exploration at Cunningham Falls State Park, Maryland. Young Entomologists Group, The Entomological Society of Washington. M. Bundens, M. McCarty, & P.N. Hogan.
2025 (9, *Outreach Event*) 42nd Annual Insect Fear Film Festival, Information and Resources
2024 (8, *Outreach Event*) Illinois Master Naturalist Aquatic Insects Class. R.E. DeWalt, P.N. Hogan, L.V. Hart, & T.Z. Cook
(7, *Poster*) The DeWalt Lab: Stonefly Distribution, Phylogeny, & Conservation. Illinois Natural History Survey Open House. T.Z. Cook, L.V. Hart, P.N. Hogan, & R.E. DeWalt
(6, *Outreach Event*) 41st Annual Insect Fear Film Festival, Information and Resources
2023 (5, *Outreach Event*) 40th Annual Insect Fear Film Festival, Information and Resources
(4, *Blogpost*) Entomological Collections Management Workshop 2023: an exemplar of natural history museum best practices. P.N. Hogan, L.V. Hart, J. Schwartz, & J. Martin. Propodeum. (Link)
(3, *Blogpost*) Towards long-lived specimens, data, and increased impact. T. McElrath et al. Propodeum (Link)

2022 (2, *Conference*) Program, Scheduling, and Abstracts 2022 Virtual Meeting. 2022 XVIth International Conference on Ephemeroptera and XXth International Symposium on Plecoptera. R.E. DeWalt & P.N. Hogan. (Link)
(1, *Outreach Event*) 39th Annual Insect Fear Film Festival, Virtual Petting Zoo.

Additional Employment Experiences

2019: Seasonal Maintenance Worker for the Maryland Department of Natural Resources
